

Action Items, August, 2023

1. Sandra – Continue to monitor % water loss. Commissioners and Sandra should monitor this monthly. The backwash needs to be turned down; monthly water loss is too high.
2. Area near the wells might be undermined by water. After assessing the property in February, it was determined that no immediate action needed to take place. Commissioners will monitor the area and will look at it in the fall.
3. The marker on George/Samish has not been installed. When? When will the replacement cover be installed at 3616 Fidalgo Drive?
4. Sandra is working with Creative Technology (El Dorado) to offer a payment by credit card option. **This should be operational with the next billing in August.**
5. The spare pumps need to be refurbished to accommodate the new VFD's and work with the existing booster pumps. Send to Mack and Mack for refurbishing.
6. Jill will research companies who will power wash and paint the Guemes water tank.
7. Commissioners met with Craig Cyr regarding solar panels and/or battery storage at the pump house. Application process is in February/March. Any updates?
8. New asphalt on Hubble Court? It's on the schedule.
9. Get a price on the Storz quick connectors for our fire hydrants and find out the size needed. Set up a schedule to check one hydrant per month for adequate fire flow. Put bags over hydrants that don't have enough water.
