

Radio stats, January 2023

We had great results last night with those who participated. I hope one day that we'll have a drill with all people present! Overall, I thought there was less static last night than in previous drills.

B1 could hear Blocks 2-7.

B2 has not responded with results.

B3 could hear Blocks 1,3,4,5,6, and 7.

B4 could hear Blocks 1,2,3, and 5. Weird that he couldn't hear 6 or 7.

B5 could hear Blocks 1-7.

B6 could hear Blocks 1-7, but B5 had some static.

B7 could hear Blocks 1-6.

B8 could not locate his radio.

B9 was not available.

B10 was out of town.

B11 has not responded with results.

B12 was out of town.

Thank you all so much for being available and sending in your results right away. This is SO helpful. If you can't make the drill, please let me know in advance. Find a replacement for that event if possible.

You are so appreciated!
